

Modern Hydraulic Technology

division of Newark Special Technology, Inc.

1500 ton BALDWIN [Stock Number 6120]

Construction 4 posts
(10) platens 52" x 52" x 2-7/8" thick

Daylight opening
9 openings of approximately 2-3/4" each, 59" without platens

Clearance between tie rods 54-1/2" L-R x 23-1/2" F-B

Stroke 26" (approximate)

Power unit

Westinghouse 40 HP motor, 3 phase, 60 cycle, 220/440 volt, 108/54 amps, 880 RPM, serial #11N4522 double end Oilgear pump, Model No. DP 3525, serial #123896, 900 RPM, 2500 PSI, Roper low pressure pump, figure No. 2F200, spec. no.5, type no.6. Main directional valve, Model #DF 5S4242AE, 230 volts solenoids.

Steam heat instrumentation by Taylor Instrument Company

Oil reservoir 108" long x 48" wide x 24" high.

F.C.A., loaded on trucks, at Philadelphia, PA
